Direct real estate investments are subject to periodic rent reviews over time. The embedded rent growth potential is calculated by dividing the existing portfolio market rents by the prevailing in-place rents. Any expectations that in-place rents have the potential to increase are based on certain assumptions that may change and do not constitute forecasts. Such growth potential is hypothetical, provided for informational purposes only, and does not represent the actual or estimated future performance of BEPIF.
3. Dividends are incorporated into the Total Return (Net) of the applicable share class. Accumulation Sub-Class Shares will, in lieu of receiving cash distributions, have any such amounts reflected in their respective NAV per share. Dividend history is available on request.

Key Risk Factors

The attention of potential investors is drawn to the risks to which any investor is exposed by investing in BEPIF. Potential investors should pay particular attention to the risks described in the dedicated section of the Prospectus and Key Information Document (KID). In making an investment decision, investors must rely on their own examination of BEPIF and the terms of the offering, including the merits and risks involved. Potential investors should not construe the contents of this Prospectus as legal, tax, investment or accounting advice.

The following is a summary description of the principal risks of investing in BEPIF. The order of the below risk factors does not indicate the significance of any particular risk factor. Complete information on the risks of investing in BEPIF is set out in the Prospectus.

Loss and No Assurance of Investment Return. BEPIF offers no capital guarantee. This investment involves a significant risk of capital loss and should only be made if an investor can afford the loss of its entire investment. There are no guarantees or assurances regarding the achievement of investment objectives or performance. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose all of your investment. A fund's performance may be volatile. An investment should only be considered by sophisticated investors who can afford to lose all or a substantial amount of their investment. A fund's fees and expenses may offset or exceed its profits. In considering any investment performance information contained in the document and related materials ("the Materials"), **recipients should bear in mind that past performance does not predict future returns.**

Lack of Liquidity. There is no current public trading market for the shares, and Blackstone does not expect that such a market will ever develop. Therefore, redemption of shares by BEPIF will likely be the only way for you to dispose of your shares. BEPIF expects to redeem shares at a price equal to the applicable net asset value as of the redemption date and not based on the price at which you initially purchased your shares. Shares redeemed within one year of the date of issuance will be redeemed at 95% of the applicable net asset value as of the redemption date, unless such deduction is waived by BEPIF in its discretion, including without limitation in case of redemptions resulting from death, qualifying disability or divorce. As a result, you may receive less than the price you paid for your shares when you sell them to BEPIF pursuant to BEPIF's redemption program.

The vast majority of BEPIF's assets are expected to consist of real estate properties and other investments that cannot generally be readily liquidated without impacting BEPIF's ability to realize full value upon their disposition. In addition, total redemptions across the Fund (inclusive of applicable Parallel Entities) are generally limited to 2% of aggregate NAV per month and 5% per calendar quarter. Therefore, BEPIF may not always have a sufficient amount of cash to immediately satisfy redemption requests. As a result, your ability to have your shares redeemed by BEPIF may be limited and at times you may not be able to liquidate your investment.

Concentration. The Fund's investment strategy is substantially concentrated in the real estate sector and its performance will therefore be closely tied to the performance of this sector which

has historically experienced substantial price volatility. The Fund's concentration in the real estate sector may present more risks than if it were broadly diversified over numerous industries and sectors of the economy.

Conflicts of Interest. There may be occasions when the fund manager and its affiliates will encounter potential conflicts of interest in connection with BEPIF's activities including, without limitation, the allocation of investment opportunities, relationships with Blackstone's and its affiliates' investment banking and advisory clients, and the diverse interests of BEPIF's investors.

Exchange Currency Risk. BEPIF is denominated in Euro (EUR). Shareholders holding shares with a functional currency other than Euro acknowledge that they are exposed to fluctuations of the Euro foreign exchange rate and/or hedging costs, which may lead to variations on the amount to be distributed. This risk is not considered in the indicator shown above. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that the Fund will be able to locate, consummate and exit investments that satisfy its objectives or realize upon their values or that the Fund will be able to fully invest its available capital. There is no guarantee that investment opportunities will be allocated to the Fund and/or that the activities of Blackstone's other funds will not adversely affect the interests of the Fund.

Real Estate Investments. The Fund's investments do and will consist primarily of real estate investments and real estate-related investments. All real estate investments are subject to some degree of risk. For example, real estate investments are relatively illiquid and, therefore, will tend to limit Blackstone's ability to vary the Fund's portfolio promptly in response to changes in economic or other conditions. No assurances can be given that the fair market value of any real estate investments held by the Fund will not decrease in the future or that the Fund will recognize full value for any investment that the Fund is required to sell for liquidity reasons. Deterioration of real estate fundamentals generally may negatively impact the performance of the Fund. In addition, the Fund may be subject to more specific risks relating to inter alia the residential, commercial or the industrial real estate sectors.

Key Risk Factors (cont'd)

Recent Market Events Risk. Local, regional, or global events such as war (e.g., Russia / Ukraine), acts of terrorism, public health issues like pandemics or epidemics (e.g., COVID-19), recession, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on the Fund and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in the Fund may be increased.

Reliance on Key Management Personnel. The success of the Fund will depend, in large part, upon the skill and expertise of certain Blackstone professionals. In the event of the death, disability or departure of any key Blackstone professionals, the business and the performance of the Fund may be therefore adversely affected. Some Blackstone professionals may have other responsibilities, including senior management responsibilities, throughout Blackstone and, therefore, conflicts are expected to arise in the allocation of such personnel's time (including as a result of such personnel deriving financial benefit from these other activities, including fees and performance-based compensation).

Sustainability Risks. BEPIF may be exposed to an environmental, social or governance event or condition that, if it occurs, could have a material adverse effect, actual or potential, on the value of the investments made by BEPIF. Sustainability risks are assessed into investment decisions relating to BEPIF.

Target Allocations. There can be no assurance that the Fund will achieve its objectives or avoid substantial losses. Allocation strategies and targets depend on a variety of factors, including prevailing market conditions and investment availability. There is no guarantee that such strategies and targets will be achieved and any particular investment may not meet the target criteria.

Use of Leverage. The Fund may borrow money. If returns on such investment exceed the costs of borrowing, investor returns will be enhanced. However, if returns do not exceed the costs of borrowing, Fund performance will be depressed. This includes the potential for the Fund to suffer greater losses than it otherwise would have. The effect of leverage is that any losses will be magnified. The use of leverage also exposes the Fund to the risk of an increase in interest rates.

Variable Valuations. The valuation of Fund's investments will be difficult, may be based on imperfect information and is subject to inherent uncertainties, and the resulting values may differ from values that would have been determined had a ready market existed for such investments, from values placed on such investments by other investors and from prices at which such investments may ultimately be sold.

Important Disclosure Information

This document may not be relied on in any manner as legal, tax, investment, accounting or other advice or as an offer to sell, or a

solicitation of an offer to buy any security or instrument in or to participate in any trading strategy with any Fund, account or other investment vehicle, nor shall it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. All information is as of November 30, 2025, unless otherwise indicated and may change materially in the future.

Case Studies. The selected investment examples, case studies and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally and are intended to be illustrative of the types of investments that have been made or may be made by the Fund in employing the Fund's investment strategies. It should not be assumed that the Fund will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by the Fund or any other future fund will be made under different market conditions from those investments presented or referenced in the Materials and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of the Fund as well as other Blackstone personnel who will not be involved in the management and operations of the Fund. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment. Further investment details are available upon request.

Diversification; Potential Lack Thereof. Diversification is not a guarantee of either a return or protection against loss in declining markets. The number of investments which the Fund makes may be limited, which would cause the Fund's investments to be more susceptible to fluctuations in value resulting from adverse economic or business conditions with respect thereto. There is no assurance that any of the Fund's investments will perform well or even return capital; if certain investments perform unfavorably, for the Fund to achieve above-average returns, one or a few of its investments must perform very well. There is no assurance that this will be the case. In addition, certain geographic regions and/or industries in which the Fund is heavily invested may be more adversely affected from economic pressures when compared to other geographic regions and/or industries.

Embedded Growth. Embedded growth represents Blackstone's expectations for growth based on its view of the current market environment taking into account rents that are currently below market rates and therefore have the potential to increase. These expectations are based on certain assumptions that may not be correct and on certain variables that may change, are presented for illustrative purposes only and do not constitute forecasts. There can be no assurance that any such results will actually be achieved.

Important Disclosure Information (cont'd)

Estimates / Targets. Any estimates, targets, forecasts, or similar predictions or returns set forth herein are based on assumptions and assessments made by Blackstone that it considers reasonable under the circumstances as of the date hereof. They are necessarily speculative, hypothetical, and inherently uncertain in nature, and it can be expected that some or all of the assumptions underlying such estimates, targets, forecasts, or similar predictions or returns contained herein will not materialize and/or that actual events and consequences thereof will vary materially from the assumptions upon which such estimates, targets, forecasts, or similar predictions or returns have been based. Among the assumptions to be made by Blackstone in performing its analysis are (i) the amount and frequency of current income from an investment, (ii) the holding period length, (iii) EBITDA growth and cost savings over time, (iv) the manner and timing of sale, (v) exit multiples reflecting long-term averages for the relevant asset type, (vi) customer growth and other business initiatives, (vii) availability of financing, (viii) potential investment opportunities Blackstone is currently or has recently reviewed and (ix) overall macroeconomic conditions such as GDP growth, unemployment and interest rate levels. Inclusion of estimates, targets, forecasts, or similar predictions or returns herein should not be regarded as a representation or guarantee regarding the reliability, accuracy or completeness of such information, and neither Blackstone nor the Fund is under any obligation to revise such returns after the date provided to reflect the occurrence of future events, even in the event that any or all of the assumptions underlying such returns are later shown to be incorrect. None of Blackstone, the Fund, their affiliates or any of the respective directors, officers, employees, partners, shareholders, advisers and agents of any of the foregoing makes any assurance, representation or warranty as to the accuracy of such assumptions. Investors and clients are cautioned not to place undue reliance on these forward-looking statements. Recipients of the Materials are encouraged to contact BEPIF representatives to discuss the procedures and methodologies used to make the estimates, targets, forecasts, and/or similar predictions or returns and other information contained herein.

Feeder Fund Structures. In certain instances, a third-party manager will form an investment vehicle (the "Third-Party Feeder Fund") that invests all or substantially all of its assets in a fund that is managed by Blackstone (the "Underlying Blackstone Fund"). Investors in the Third-Party Feeder Fund are subject to additional costs and risks in addition to those costs and risks borne by investors who invest directly into the Underlying Blackstone Fund. Specifically, in addition to bearing a share of the costs of the Third-Party Feeder Fund's investment in the Underlying Blackstone Fund (including the Underlying Blackstone Fund's expenses, fees, and performance allocations payable to Blackstone), investors in the Third-Party Feeder Fund also bear additional costs, fees and expenses that are charged at the Third-Party Feeder Fund level. For example, the third-party manager is expected to charge investors in the Third-Party Feeder Fund their pro-rata portion of organizational expenses, management fees, and other fees and expenses. As a result, the performance of an investment in the Third-Party Feeder Fund will be lower, possibly materially, than an investment made directly in the Underlying Blackstone Fund. In addition, a variety of other factors may contribute to differences between the

performance of the Third-Party Feeder Fund and the Underlying Blackstone Fund, including, but not limited to, the size of the Third-Party Feeder Fund's cash reserves and the differences in timing of the cash flows. The manager of the Third-Party Feeder Fund also has discretion to manage expenses and cash reserves, which may cause an adverse difference in performance between the Third-Party Feeder Fund and the Underlying Blackstone Fund. The performance shown herein reflects that of investors who invest directly in an Underlying Blackstone Fund, not investors in a Third-Party Feeder Fund; the performance of an investor in a Third-Party Feeder Fund would have been lower. In instances where inception-to-date performance is presented, the Third-Party Feeder Fund will have different inception-to-date performance than the Underlying Blackstone Fund because the Third-Party Feeder Fund invests after the inception of the Underlying Blackstone Fund.

Forward-Looking Statements. Certain forward-looking statements, including financial projections and estimates and statements regarding future performance, are inherently uncertain and there may be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. Blackstone undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

Your financial advisor may contact you for your consent to share information with BEPIF to fulfil the requirements under Article 990 D of the French tax code, where determined to be relevant. Please see the Prospectus for additional details.

It is expected that BEPIF will directly or indirectly own real estate assets and therefore its shares or units (as applicable) will fall within the scope of the French real estate wealth tax, as more particularly described in the Prospectus. Potential investors (including non-residents for French tax purposes) are strongly urged to obtain advice from their own tax advisers regarding their position with respect to French real estate wealth tax.
