

Why BEPIF Now?

Portfolio is well-positioned for higher inflation and interest rates, and ~70% concentrated in logistics where strong fundamentals have continued to power performance

1. "70/80/90 portfolio" = built for today's environment

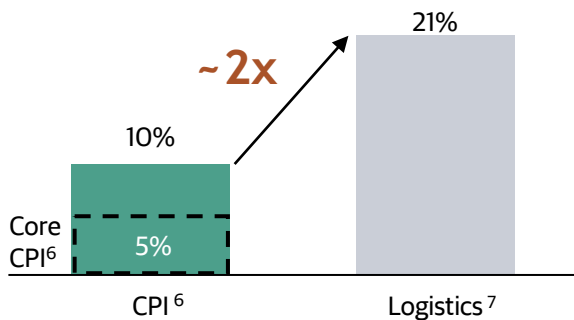

-70% concentrated in logistics, Blackstone Real Estate's highest conviction theme globally¹

- Robust demand, limited new supply, and record low vacancy driving record-breaking rent increases when leases expire^{2,3}

-80% of portfolio rents linked to rates of inflation⁴

-90% fixed-rate or hedged liabilities, mitigating rising interest rates⁵

YoY Logistics Market Rent Growth vs. Inflation

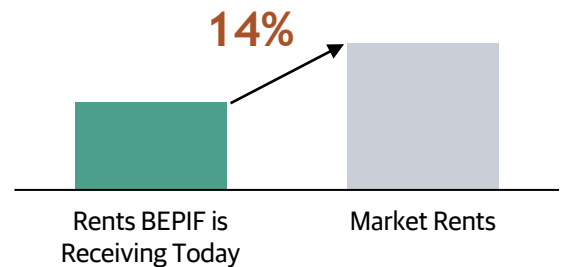

Manager selection matters

A hallmark of Blackstone Real Estate's investment approach is finding value in moments of uncertainty like today

2. Market rents above in-place rents provide future upside potential

BEPIF's Portfolio Rents Compared to Market Rents⁸

- **Market rents are 14% above in-place rates**, which should position BEPIF for continued cash flow growth even if market rent growth moderates
- **Significant e-commerce growth potential:** penetration in Continental Europe ~40% below the U.S.⁹
- **Declining new supply:** Continental European logistics construction starts in Q4'22 down ~45% YoY¹⁰

3. Valuations reflect market conditions

- Rigorous monthly valuation process based on discounted cash flows
- Since April 2022, BEPIF has increased exit cap rates (lowered valuation multiples) by 8% and discount rates by 4%¹¹

Your capital is at risk and you may lose some or all of your investment. There can be no assurance that the Fund will achieve its objectives, avoid substantial losses or effectively hedge inflation. **Past performance is not necessarily indicative of future results.** There can be no assurance that any of the trends described herein will continue in the future or will not reverse. Rental income is not guaranteed and there can be no assurance that rental income will continue to outpace or even keep pace with inflation. The above are examples of select investment themes that Blackstone currently pursues, but themes are subject to change.

1. Sector breakdown by GAV at Fund share including underlying investments within Blackstone's open-ended European Core+ fund for institutional investors, excluding debt investments.
2. CBRE, as of September 30, 2022. Demand and supply represents total take-up and completion in France, Germany, Italy, the Netherlands, Spain and the U.K. between Q4 2012 and Q3 2022. Vacancy is weighted by logistics exposure in Blackstone's open-ended European Core+ funds (based on sqm owned).
3. Blackstone proprietary data, as of November 30, 2022. Record rent increases represent re-leasing spreads for BEPIF's largest investment, Mileway.
4. Refers to the percentage of rents linked to inflation or with regular rent reviews. Represents direct real estate investments as of October 31, 2022, and Blackstone's open-ended European Core+ fund for institutional investors as of September 30, 2022.
5. Represents direct real estate investments and Blackstone's open-ended European Core+ fund for institutional investors as of December 31, 2022. Fixed-rate or hedged liabilities includes debt that has been swapped from floating to fixed-rate (inclusive of forward-starting swaps), interest rate caps and matched debt.
6. Represents the 1-year growth rate from Q3 2021 to Q3 2022. ECB, for Eurozone Harmonized Index of Consumer Prices (HICP); BoE, for U.K. Consumer Price Index (CPI). CPI weighting based on U.K. / Eurozone logistics exposure in Blackstone's open-ended European Core+ funds (based on sqm owned). Core CPI for U.K. excludes energy and food. Core HICP index for Eurozone excludes energy, food, alcohol and tobacco.
7. Represents the 1-year growth rate from Q3 2021 to Q3 2022. CBRE. YoY market rent growth is based on country-level prime rent weighted by rentable value (as calculated by CBRE) and weighted by logistics exposure in Blackstone's open-ended European Core+ funds (based on sqm owned).
8. Blackstone proprietary data as of December 31, 2022. Any expectations that in-place rents have the potential to increase are based on certain assumptions that may change and do not constitute forecasts. Such growth potential is hypothetical, provided for informational purposes only, and does not represent the actual or estimated future performance of BEPIF.
9. As of September 30, 2022. Continental Europe: GlobalData. Continental Europe represents the weighted average of e-commerce penetration based on retail sales for Germany, the Netherlands, France, Spain and Italy. U.S.: U.S. Census Bureau represents sales share of total retail sales excluding auto, gas and food services. E-commerce penetration reflects a trailing 12-month period.
10. Prologis, as of December 31, 2022.
11. Weighted Average GAV at share. On a same store portfolio and includes all assets acquired prior to May 2022 which represents ~80% GAV at share.

Glossary

The following are explanations of terms used in this report. These definitions are not exhaustive and are intended as a guide only. Please refer to the Prospectus and Key Information Document (KID) for further details.

BEPIF	Blackstone European Property Income Fund SICAV, a Luxembourg investment company with variable capital (<i>société d'investissement à capital variable</i>) incorporated under the form of public limited liability company (<i>société anonyme</i>) subject to Part II of Law of 17 December 2010 relating to undertakings for collective investment, as amended
Core Consumer Price Index (CPI)	a measure of the costs of goods and services, excluding the food and energy sectors
Core+	a real estate investment strategy characterized by stabilized real estate with a long investment horizon, moderate leverage and potential capital appreciation through focused asset management
Discount Rate	the rate of return used to discount future cash flows to their present value. Discount rates are generally calculated as the weighted average cost of capital, with required returns assessed relative to prevailing market benchmarks
Exit Cap Rate	yield used to estimate the value of a property or portfolio at the end of the expected holding period. The projected 1-year forward net operating income (NOI) at the end of the holding period is divided by the exit cap rate to get the terminal value, before deducting transaction costs. Exit cap rates are estimated based on a variety of factors, including a particular property's attributes and market supply and demand fundamentals
Fixed-Rate or Hedged Liabilities	a liability, such as a loan or a mortgage, which has a fixed or hedged interest rate for the entire term or a specified part of its term. Fixed-rate liabilities are commonly used to provide greater certainty of interest payments over the term of the borrowing. In addition, interest rates can be "hedged" (i.e. by using derivative instruments such as interest-rate swaps with the intention of reducing the risk of adverse interest rate movements) or "matched" (i.e. by matching floating-rate loans to floating-rate assets) as a risk management tool
Fund	refers to the fund complex as a whole, including Blackstone European Property Income Fund SICAV (referred to as BEPIF), Blackstone European Property Income Fund (Master) FCP and their parallel funds
Future Upside Potential	represents the estimated rent growth potential between the Fund's in-place portfolio rents and achievable market rents for direct real estate investments. Direct real estate investments are subject to periodic rent reviews over time. Rent growth potential is calculated by dividing the existing in-place portfolio rents by the prevailing market rents
Gross Asset Value (GAV)	measured as the fair value of (i) real estate investments at Fund share, plus (ii) real estate debt investments. "Real estate investments" is comprised of the Fund's majority-controlled property investments, the Fund's look-through share of property investments held by Blackstone's open-ended European Core+ fund for institutional investors and equity in minority investments
Inflation-Linked Leases	a lease agreement linked to an inflation index, commonly used as an alternative to open market rent reviews. Rents from these contracts increase / decrease in line with increases / decreases in the contractual inflation index, sometimes as of percentage of inflation or with a contractual maximum and minimum increase for each indexation event. Typically, leases are indexed annually or once the inflation index has reached a certain threshold
Interest Rate Hedge	commonly used to mitigate interest rate risk in a rising rate environment. Interest rates can be hedged by using derivative instruments such as interest rate swaps with the intention of reducing the risk of adverse interest rate movements

Glossary (cont'd)

Net Operating Income (NOI)	operating revenues less operating expenses
Re-leasing Spread	calculated as the difference between the new and previous headline rent of a lettable unit
Reference Period	the year ending December 31, subject to pro-rating for partial years
Sector Allocation	reflects the sector breakdown by percentage of Gross Asset Value including underlying investments within Blackstone's open-ended European Core+ fund for institutional investors, excluding debt investments. "Other" includes the Arch Company, residential, luxury retail and other assets which are owned by Blackstone's open-ended European Core+ fund for institutional investors. Totals may not sum due to rounding
Year-over-Year (YoY)	year-over-year growth compares a recent performance with its numbers for the same period one year earlier

Key Risk Factors

Capitalized terms used herein but not otherwise defined have the meanings set forth in the "Important Disclosure Information" section.

Risk Indicator

Under the Packaged Retail and Insurance-based Investment Products (PRIIPs) Regulation, we have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions could impact our capacity to pay you. There is no specific recommended holding period for the product. The actual risk can vary significantly. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts how much you get back. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The attention of potential investors is drawn to the risks to which any investor is exposed by investing in the Fund. Potential investors should pay particular attention to the risks described in the dedicated section of the Prospectus and Key Information Document (KID). In making an investment decision, investors must rely on their own examination of BEPIF and the terms of the offering, including the merits and risks involved. Potential investors should not construe the contents of this Prospectus as legal, tax, investment or accounting advice.

The following is a summary description of the principal risks of investing in BEPIF. The order of the below risk factors does not indicate the significance of any particular risk factor. **Complete information on the risks of investing in BEPIF is set out in the Prospectus.**

Risk of Capital Loss and No Assurance of Investment Return. BEPIF offers no capital protection guarantee. This investment involves a significant risk of capital loss and should only be made if an investor can afford the loss of its entire investment. There are no guarantees or assurances regarding the achievement of investment objectives or performance. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose some or all of your investment. A fund's performance may be volatile. An investment should only be considered by sophisticated investors who can afford to lose all or a substantial amount of their investment. A fund's fees and expenses may offset or exceed its profits. In considering any investment performance information contained in the document and related materials ("the Materials"), **recipients should bear in mind that past performance is not necessarily indicative of future results.**

Lack of Liquidity. There is no current public trading market for the shares, and Blackstone does not expect that such a market will ever develop. Therefore, redemption of shares by BEPIF will likely be the only way for you to dispose of your shares.

BEPIF expects to redeem shares at a price equal to the applicable net asset value as of the redemption date and not based on the price at which you initially purchased your shares. Shares redeemed within one year of the date of issuance will be redeemed at 95% of the applicable net asset value as of the redemption date, unless such deduction is waived by the Fund in its discretion, including without limitation in case of redemptions resulting from death, qualifying disability or divorce. As a result, you may receive less than the price you paid for your shares when you sell them to BEPIF pursuant to BEPIF's redemption program.

The vast majority of BEPIF's assets are expected to consist of real estate properties and other investments that cannot generally be readily liquidated without impacting BEPIF's ability to realize full value upon their disposition. Therefore, BEPIF may not always have a sufficient amount of cash to immediately satisfy redemption requests. As a result, your ability to have your shares redeemed by BEPIF may be limited and at times you may not be able to liquidate your investment.

Concentration. BEPIF's investment strategy is substantially concentrated in the real estate sector and its performance will therefore be closely tied to the performance of this sector which has historically experienced substantial price volatility. The Fund's concentration in the real estate sector may present more risks than if it were broadly diversified over numerous industries and sectors of the economy.

Conflicts of Interest. There may be occasions when the fund manager and its affiliates will encounter potential conflicts of interest in connection with the Fund's activities including, without limitation, the allocation of investment opportunities, relationships with Blackstone's and its affiliates' investment banking and advisory clients, and the diverse interests of the Fund's investors

Epidemics/Pandemics. Certain countries have been susceptible to epidemics which may be designated as pandemics by world health authorities, most recently COVID-19. The outbreak of such epidemics, together with any resulting restrictions on travel or quarantines imposed, has had and will continue to have a negative impact on the economy and business activity globally (including in the countries in which the Fund invests), and thereby is expected to adversely affect the performance of the Fund's investments.

Exchange Currency Risk. The Fund is denominated in Euro (EUR). Shareholders holding shares with a functional currency other than Euro acknowledge that they are exposed to fluctuations of the Euro foreign exchange rate and/or hedging costs, which may lead to variations on the amount to be distributed. This risk is not considered in the indicator shown above. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments is highly competitive, and involves a high degree of uncertainty. There can be no assurance that the Fund will be able to locate, consummate and exit investments that satisfy its objectives or realize upon their values or that the Fund will be able to fully invest its available capital. There is no guarantee that investment opportunities will be allocated to the Fund

Key Risk Factors (cont'd)

and/or that the activities of Blackstone's other funds will not adversely affect the interests of the Fund.

Real Estate Investments. The Fund's investments do and will consist primarily of real estate investments and real estate-related investments. All real estate investments are subject to some degree of risk. For example, real estate investments are relatively illiquid and, therefore, will tend to limit Blackstone's ability to vary the Fund's portfolio promptly in response to changes in economic or other conditions. No assurances can be given that the fair market value of any real estate investments held by the Fund will not decrease in the future or that the Fund will recognize full value for any investment that the Fund is required to sell for liquidity reasons. Deterioration of real estate fundamentals generally may negatively impact the performance of the Fund. In addition, the Fund may be subject to more specific risks relating to inter alia the residential, commercial or the industrial real estate sectors.

Reliance on Key Management Personnel. The success of the Fund will depend, in large part, upon the skill and expertise of certain Blackstone professionals. In the event of the death, disability or departure of any key Blackstone professionals, the business and the performance of the Fund may be therefore adversely affected. Some Blackstone professionals may have other responsibilities, including senior management responsibilities, throughout Blackstone and, therefore, conflicts are expected to arise in the allocation of such personnel's time (including as a result of such personnel deriving financial benefit from these other activities, including fees and performance-based compensation).

Russian Invasion of Ukraine. On February 24, 2022, Russian troops began a full-scale invasion of Ukraine and, as of the date of this document, the countries remain in active armed conflict. Around the same time, the United States, the United Kingdom, the European Union, and several other nations announced a broad array of new or expanded sanctions, export controls, and other measures against Russia, Russia-backed separatist regions in Ukraine, and certain banks, companies, government officials, and other individuals in Russia and Belarus. The ongoing conflict and the rapidly evolving measures in response could be expected to have a negative impact on the economy and business activity globally (including in the countries in which BEPIF invests), and therefore could adversely affect the performance of BEPIF's investments. The severity and duration of the conflict and its impact on global economic and market conditions are impossible to predict, and as a result, could present material uncertainty and risk with respect to BEPIF and the performance of its investments and operations, and the ability of BEPIF to achieve its investment objectives. Similar risks will exist to the extent that any investments, service providers, vendors or certain other parties have material operations or assets in Russia, Ukraine, Belarus, or the immediate surrounding areas.

Sustainability Risks. The Fund may be exposed to an environmental, social or governance event or condition that, if it occurs, could have a material adverse effect, actual or potential, on the value of the investments made by the Fund. Sustainability risks are assessed into investment decisions relating to the Fund.

Target Allocations. There can be no assurance that the Fund will achieve its objectives or avoid substantial losses.

Allocation strategies and targets depend on a variety of factors, including prevailing market conditions and investment availability. There is no guarantee that such strategies and targets will be achieved and any particular investment may not meet the target criteria.

Use of Leverage. The Fund may borrow money. If returns on such investment exceed the costs of borrowing, investor returns will be enhanced. However, if returns do not exceed the costs of borrowing, Fund performance will be depressed. This includes the potential for the Fund to suffer greater losses than it otherwise would have. The effect of leverage is that any losses will be magnified. The use of leverage also exposes the Fund to the risk of an increase in interest rates.

The Key Information Document (KID), so as to help you understand the nature, risks, costs, potential gains and losses of this investment product, is available on demand free of charge, in multiple languages on the website or at the appointed distributors.

Important Disclosure Information

This document may not be relied on in any manner as legal, tax, investment, accounting or other advice or as an offer to sell, or a solicitation of an offer to buy any security or instrument in or to participate in any trading strategy with any Blackstone fund, account or other investment vehicle, nor shall it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. All information is as of December 31, 2022, unless otherwise indicated and may change materially in the future.

Case Studies. The selected investment examples, case studies and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally and are intended to be illustrative of the types of investments that have been made or may be made by a Fund in employing such Fund's investment strategies. It should not be assumed that a Fund will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by a Fund or any other future fund will be made under different market conditions from those investments presented or referenced in the Materials and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of a Fund as well as other Blackstone personnel who will not be involved in the management and operations of such Fund. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment. Further investment details are available upon request.

Diversification; Potential Lack Thereof. Diversification is not a guarantee of either a return or protection against loss in declining markets. The number of investments which a Fund makes may be limited, which would cause the Fund's

Important Disclosure Information (cont'd)

investments to be more susceptible to fluctuations in value resulting from adverse economic or business conditions with respect thereto. There is no assurance that any of the Fund's investments will perform well or even return capital; if certain investments perform unfavorably, for the Fund to achieve above-average returns, one or a few of its investments must perform very well. There is no assurance that this will be the case. In addition, certain geographic regions and/or industries in which the Fund is heavily invested may be more adversely affected from economic pressures when compared to other geographic regions and/or industries.

Forward-Looking Statements. Certain forward-looking statements, including financial projections and estimates and statements regarding future performance, are inherently uncertain and there may be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. Blackstone undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

French Real Estate Wealth Tax. It is expected that BEPIF will directly or indirectly own real estate assets and therefore its shares or units (as applicable) will fall within the scope of the French real estate wealth tax, as more particularly described in the Prospectus. Potential investors (including non-residents for French tax purposes) are strongly urged to obtain advice from their own tax advisers regarding their position with respect to French real estate wealth tax.

French 3% Tax. It is expected that BEPIF will own real estate assets in France and therefore fall within the scope of the French 3% tax provided under Article 990 D of the French tax code, as more particularly described in the Prospectus. Potential investors which are not an individual investing directly in BEPIF and for its own benefit (and not as a nominee, agent or trustee for another) are strongly urged to obtain advice from their own tax advisers regarding their ability and the ability of each of their Upstream Entities to rely on an exemption from such tax. "Upstream Entity" means, in relation to an investor in BEPIF, each and every entity holding direct or indirect interests in that investor (including without limitation a beneficiary, beneficial owner, legal owner, trustee or settlor of a trust, a fiduciary or any similar arrangement). Your financial advisor may contact you for your consent to share information with the Fund to fulfil the requirements under Article 990 D of the French tax code, where determined to be relevant. Please see the Prospectus for additional details.

- (d) to a person who is a government agency; or
- (e) to a person who is a close business associate within the meaning of clause 4 of Schedule 1 of the Financial Markets Conduct Act (N.Z.) of the Offeror; or
- (f) in other circumstances where there is no contravention of the Financial Markets Conduct Act (N.Z.) (or any statutory modification or re-enactment of, or statutory substitution for,

the Financial Markets Conduct Act (N.Z.)).

In subscribing for Interests each investor represents and agrees that it is not acquiring those Interests with a view to dealing with them (or any of them) other than where an exclusion under Part 1 of Schedule 1 of the Financial Markets Conduct Act (N.Z.) applies to such dealing and, accordingly:

- (a) it has not offered or sold, and will not offer or sell, directly or indirectly, any Interests; and
- (b) it has not distributed and will not distribute, directly or indirectly, any offering materials or advertisement in relation to any offer of Interests,

in each case in New Zealand within 12 months after the issue of Interests to that investor other than to persons who meet the criteria set out in (a) to (e) above.

Warning:

New Zealand law normally requires people who offer financial products to give information to investors before they invest. This requires those offering financial products to have disclosed information that is important for investors to make an informed decision.

The usual rules do not apply to this offer because there is an exclusion for offers where the amount invested upfront by the investor (plus any other investments the investor has already made in the financial products) is \$750,000 or more. As a result of this exclusion, you may not receive a complete and balanced set of information. You will also have fewer other legal protections for this investment.

Investments of this kind are not suitable for retail investors.

Ask questions, read all documents carefully, and seek independent financial advice before committing yourself.

Singapore

Blackstone Singapore Pte. Ltd. ("Blackstone Singapore") is a capital markets services license holder for fund management and dealing in securities and is an exempt financial adviser (in relation to the marketing of collective investment schemes and advising others, directly or through publications or writings, and whether in electronic, print or other form, concerning securities and collective investment schemes) regulated by the Monetary Authority of Singapore.

The Investment Advisor of the Fund will be registered as an investment adviser under the U.S. Investment Advisers Act of 1940 and is subject to Rule 206(4)-2 ("Custody Rule") under the Investment Advisers Act.

The offer or sale, or invitation for subscription or purchase, of the interests (the "Interests") in the Fund(s), which is the subject of this document, does not relate to collective investment scheme(s) which is authorised under Section 286 of the Securities and Futures Act 2001 (the "SFA") or recognised under Section 287 of the SFA. The Fund(s) is not authorised or recognised by the Monetary Authority of Singapore (the "MAS") and the Interests are not allowed to be offered to the retail public. Each of this document and any other document or material issued in connection with the offer or sale, or invitation for subscription or purchase, of the Interests is not a prospectus

as defined in the SFA. Accordingly, statutory liability under the SFA in relation to the content of prospectuses would not apply. You should consider carefully whether the investment is suitable for you.

This document has not been registered as a prospectus with the MAS. Accordingly, this document and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of Interests may not be circulated or distributed, nor may Interests be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 304 of the SFA, (ii) to a relevant person pursuant to Section 305(1) of the SFA, or any person pursuant to Section 305(2) of the SFA, and in accordance with the conditions specified in Section 305 of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

The Interests subscribed or purchased pursuant to Sections 304 or 305 of the SFA may only be transferred in accordance with provisions of Sections 304A and 305A of the SFA respectively.

Where the Interests are acquired under Section 305 of the SFA by a relevant person which is a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor, the securities (as defined in Section 239(1) of the SFA) of that corporation shall not be transferable for 6 months after that corporation has acquired the Interests under Section 305 except:

- (1) to an institutional investor or to a relevant person as defined in Section 305(5) or arising from an offer under Section 275 (1A) of the SFA;
- (2) where no consideration is given for the transfer; or
- (3) where the transfer is by operation of law.

Where the Interests are acquired under Section 305 of the SFA by a relevant person which is a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an individual who is an accredited investor, the beneficiaries' rights and interests in that trust shall not be transferable for 6 months after that trust has acquired the Interests under Section 305 except:

- (1) to an institutional investor or to a relevant person as defined in Section 305 (5) of the SFA or arising from an offer that is made on terms that such rights or interest are acquired at a consideration of not less than S\$200,000 (or its equivalent in a foreign currency) (or such other amount as may be prescribed under the SFA) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets;
- (2) where no consideration is given for the transfer; or
- (3) where the transfer is by operation of law.

By accepting receipt of this document and any other document or material issued in connection with the offer or sale, or invitation for subscription or purchase, of the Interests, a person in

Singapore represents and warrants that he is entitled to receive such document in accordance with the restrictions set forth above and agrees to be bound by the limitations contained herein.
